## Inside Our Class

Students are currently learning Korean consonants and exploring the sounds they make by connecting them to speech organs and expressing them through body movements. They are also practicing writing Hangeul in the correct stroke order and reading it properly, combining literacy learning with hands-on activities.

## Teacher's Note

All students have adjusted well to school over the past month. It has been a joyful and thankful February as our returning students warmly welcomed their new classmates and learned together.

In March, students will learn about the March First Movement (Samiljeol) and our school's anniversary, helping them develop a deeper appreciation for the school community as well as greater interest and pride in Korean heritage.

## Reminders

We would like to invite you to our School Anniversary Celebration in March. More detailed information will be shared in a future email.

We hope many of you can join us and enjoy this special time with the students. :)
